

To reinforce Europe as a global leader in research & innovation, three *European networks of Research & Innovation Centres and Hubs* are being established in Brazil, China & the USA

Are you a European researcher, innovator or entrepreneur looking to internationalise towards Brazil, China or the USA? Then ENRICH is here for you!

ENRICH, the European Network of Research & Innovation Centres and Hubs, facilitates cooperation in research, technology and entrepreneurship between Europe and Brazil, China and the USA by supporting and empowering research & innovation actors. The network provides standardised and tailor-made, internationalisation support services to European researchers and innovators, to accelerate access to global markets.

Services target researchers and entrepreneurs and include webinars, training, research connection symposia, business matchmaking opportunities, working visits and innovation tours. The goal is to facilitate research and technology partnerships and business development opportunities, pitching to investors, entrepreneurial boot-camps, work space and soft landing access, business acceleration programmes, and more!
