

Accelerator

for Series A Investment

What is InvestHorizon?

InvestHorizon is a programme financed by the European Commission in association with Eureka to foster investment readiness. The InvestHorizon Accelerator is for selected deep tech companies to facilitate series A funding. The programme is delivered by a consortium, coordinated by Tech Tour and also offers open services besides the Accelerator.

Who can apply for the Accelerator?

We admit applications of SMEs that fulfill the following criteria:

EUR 250K raised in seed funding

Based in an EU, Horizon 2020 or EUREKA member country

Engaged in the field of deep tech and raising at least EUR 2.5 million of Series A funding

Committed to taking part in the Investment Readiness acceleration programme

How does the Accelerator work?

1

SELF-ASSESSMENT

SMEs self-assess then coaches & seed-investors identify opportunities and threats for the Series A funding round

2

SMART ACTION PLAN

The CEO, seed-investor and coach develop a tailor-made service programme that addresses needs and challenges

3

ACCELERATOR PROGRAMME

SMEs improve their investment readiness and relations in peer trust groups and at bootcamps and workshops

4

MEET INVESTORS

The best companies present and meet with targeted investors and contacts

How can SMEs benefit as selected for the InvestHorizon Accelerator?

Individual programme

customised to the investment-readiness needs and challenges of each company

Hand-picked investors

engaged in your business proposal

Tailored connections

and partnerships sourced from a high-level network

Accelerated funding

at higher valuations
